

Pepper robot development manual
Title: self service system of school reading
room

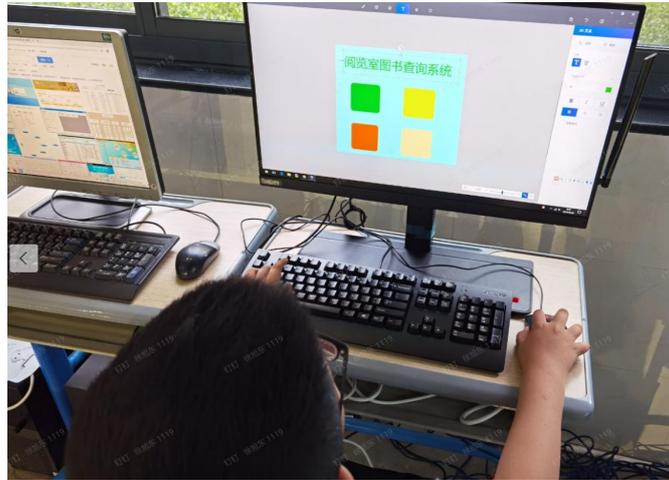

Students: Chen Yuhan, Chen Yiyi, Xu bangze,
song Yiming, Zhu Zhihao, Shen Haowei
Tutor: xuxudong, Qixian Central Primary School
(MAIL: 83323180@qq.com TEL: (86)+18106881119)

2021年 5月27日

一、 Project description:

- 1、 If the school library is to be open to students regularly, it needs to increase the number of managers, which increases the cost of the school.
- 2、 This program code is all written by the fifth grade primary school students, starting from the actual problem, to determine the program, and then design the software interface, write code, program debugging. Finally, all the functions of the project are basically completed.

二、Related function module screenshot and code

UI design

Book Search; Book borrowing; Book return:

```
let _E9_A1_B9_E7_9B_AE;
let t;
let _E6_8E_A7_E5_88_B6;
let _E6_9C_AC_E6_95_B0;
let s;
let _E5_9B_BE_E4_B9_A6=[];
```

```

control.onGreenFlagClicked(function () {
